

FORMTEK

MOULD RELEASE SYSTEMS

TRENN PRO

Technical Data Sheet

Mould Release Agent

Application

Specially formulated for use in concrete formwork release.

Technical Details

Parameter	Test Result (Typical)
Appearance	Golden Yellow, Clear
Kinematic Viscosity @ 40°C (cSt)	33.4
Viscosity Index	99
Pour Point (°C)	-5
Moisture Content (% by KF)	0.02%
Acid Value (mg KOH/g)	0.03
Sulphur Content (% wt)	0.25
Flash Point (COC, °C)	212
Ash Content (% wt)	0.01
Color (ASTM D1500)	1.5
Cleanliness (Filtration Test, 100µm)	Clear
Coverage per Square Metre	54 sq.mt/litre
Shelf Life	2 years

Features & Benefits

- Excellent mould release properties for clean concrete surface finish
- Low viscosity for easy application by spray, brush or roller
- Protects and extends formwork life
- Environmentally conscious formulation
- Suitable for steel, timber, plastic and rubber moulds
